

# MegaSyn Symposium on Megasyntases

29<sup>th</sup> September - 1<sup>st</sup> October 2020, Bad Nauheim near Frankfurt, Germany

MegaSyn, is a research initiative, funded by the Hessen Ministry of Higher Education, Research and the Arts, focuses on the understanding of megasyntases in structure and function, and controlling megasyntases for directed product synthesis.

The major aim of the symposium is to highlight the latest, cutting-edge discoveries in the field of megasyntases (PKSs and NRPSs). The symposium is planned for about 100 participants and meant as a focused platform for intensive and insightful discussions. The talks will be about 25 minutes with an discussion of 10 minutes. The meeting will also feature a poster session.
